

Vision West are moving to New  
Premises opening Tuesday 19  
October, we will be closed from  
Friday 15 to Monday 18 October

**VISION WEST**  
OPTOMETRISTS

We are relocating  
to new premises at  
Karrinyup Shopping  
Centre, this will take  
place on  
**Tuesday 19 October.**

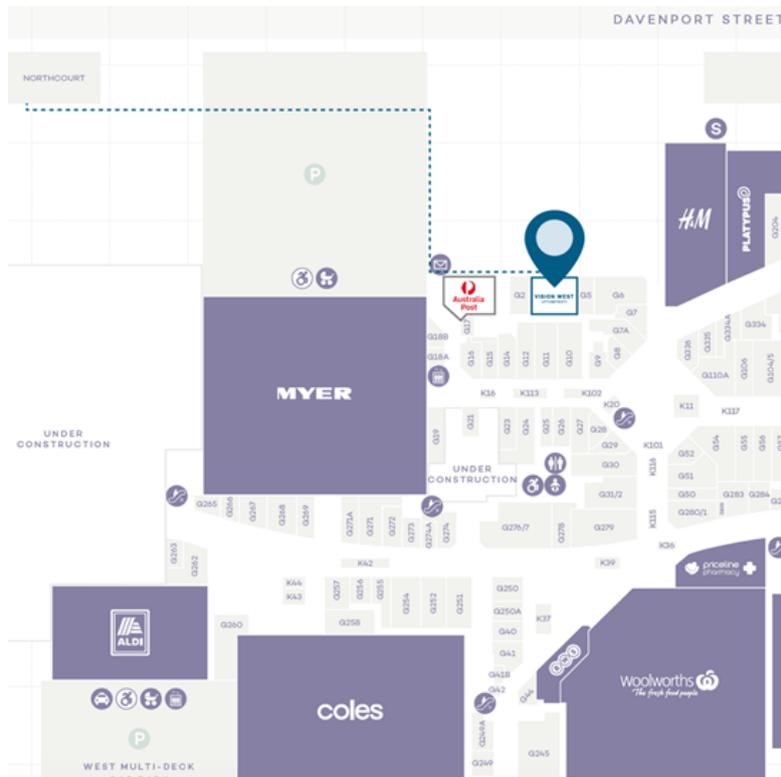

John Palassis and I are excited to announce that we are relocating Vision West into new premises on Tuesday 19 October. We are moving diagonally across to the Northern end (rear) of Karrinyup Shopping Centre near the library. Our new location is where NAB was until recently, between ANZ and the Post Office. Entry to Vision West will be from the outside courtyard. Meanwhile, this week it's business as usual in our present location in the Northcourt Building, we will be closed on Friday 15 October through to Monday 18 October.

Included at our new location will be new state-of-the-art equipment, a fourth fulltime consult room, a second instrument room, a larger more comprehensive frame display and dispensing area and an expanded laboratory.

John and I would like to thank you for your loyal support over the past 37 years in Northcourt and look forward to serving you for many more years to come at our new location.

Sincerely yours

Paul Clarke

We would like to share with you a few other changes that occurred at Vision West this year and to thank you for your patience and understanding with the parking while the renovations were undertaken.

Firstly, in August we welcomed back Tse-Ling Wong from maternity leave after having another beautiful baby boy and we will be welcoming our new optometrist Avanti Amberkar in the new year.

Tayla Howlett has now graduated as an optical dispenser and we have Ellie Schneider joining our team on Saturday mornings and Charlotte Robinson at our front desk.

## Prescription Sunglasses

### Maui Jim prescription sunglasses

Maui Jim sunglasses offer the most optically advanced lens materials and coatings. PolarizedPlus2® These lenses eliminate 99.9% of glare, allowing you to see the world at its brilliant best. Featuring the industry's most advanced production techniques, MJ's patented processes create an amazing difference you'll see immediately. They infuse their lenses with a patented blend of three rare Earth elements to

enhance red, green and blue light waves. These elements increase and balance the saturation of the colours we need to see and filter out the colours we cannot see. The lenses also block 100% of all harmful UV rays, protecting your eyes from damage and long-term health risks.

## Rudy Project

These are especially made for Cycling, running, golf and other sporting activities. Rudy Project RYDON Cycling Sports Prescription Glasses are a solution for providing clear vision in the distance and up close, while also protecting your eyes from the sun and wind.

We are still offering our Mutli-pack purchase Specials for Acuvue Contact lenses which are limited to;

30packs in 1 Day Oasys for Astigmatism, 1 Day Oasys, 1 Day Moist, 1 Day Moist for Astigmatism and 1 Day Moist Multifocal. Along with Oasys Fortnightly 6 packs and Oasys for Astigmatism fortnightly 6packs

Please contact our office for more details

Just a reminder that Vision West specialises in prescription dive masks, prescription swimming goggles and prescription sports goggles for adults and children.
